"Mary did a fabulous job overhauling and redesigning the large and content-heavy site for *Parents* magazine. Not only did she come up with terrific design concepts and site architecture, but she was also a delight to work with - always pleasant and professional."

"I just wanted to write a note saying how happy I am with what Mary Blackstock has done. I have seen the layout, and I want you to know that I think that Mary did an amazing job at designing this newspaper. It fits right in with the show. I think that this newspaper is an important and exciting document and I am very proud to have it accompany this exhibition. And again, congratulations to Mary for a job very well done."

Carolyn Christov-Bakargiev, Senior Curator, P.S. 1 Museum

"Mary Blackstock has to be one of the most elegant and stylish designers working today. The artistic sense she brought to the British Airways promotional tour enhanced the already refined essence of the BA corporate brand by adding a playful sophistication. She somehow even made supersonic jet technology look beautiful! Her thoughtful and clever designs were true crowd-pleasers, captivating the imagination of thousands of guests to the exhibit. Her work is nothing short of breath-taking. For projects requiring grace, beauty, style and wit - my first call is always to Mary."

Paul Malmont, Planet Theory / Creative Director, Ride the Rocket Tour

"Mary Blackstock is always the first designer I call. Her work is fresh, uncluttered and sophisticated. More importantly, she is a master at taking a client's communication problem and not only solving it but somehow turning it into a strong visual success in the design. And she's always a pleasure to work with - despite the company name, no diva attitude here."

Audrey Herbst, The Wolf Group/NY, Executive Producer, TheBay.com

"Working with Mary reminded me that there's a lot more to design than just making things look good. She brings a unique sense of style combined with an awareness of culture and society that makes her work smart and relevant. As a designer and a person, she is one of the finest individuals I have ever worked with."

"We were searching for a web designer capable of taking the vision that we had and making it happen. Mary Blackstock did just that, creating exactly what we had expressed. She not only did a tremendous job designing our site, she provided insight that helped us further strengthen our ideas.
